Hi David, here is a draft of the updated ppt – I added a slide called “outreach and coordination”. Thanks.

Hi Calvin, here is what I presented to the Water Management team. I think we want to add some detail about what is left to accomplish on this project to get to a proposal – things like FA, ESA and NHPA compliance, the subsidence issue raised by CalGEM, addressing the EJ screen results. Also want to highlight our coordination with the state agencies. Let me know if you have any questions. Could you get me a draft of the updated ppt for the OGWDW briefing by next Friday? Thanks, David
